## GOT THEIR DESERTS

### BLAZY AND JOE OSZUST RECEIVE SENTENCE

And are Safely Stowed Away for the Next Four Years, for Shooting at and Threatening an Officer While on Duty.

The case of the King vs. B. Oszust was terminated in the district court at Macleod, before His Honor Judge Crawford, last Friday, resulting in a conviction. Oszust, it will be remembered, was a miner living at Bellevue. He attended a wedding, a couple of weeks ago, and after returning home got into a fight with his wife and brother-in-law, the latter rushing over to the Bellevue hotel for assistance. Several men, in the hotel at the time, responded to the appeal for help and made their way to Oszust's house where they were greeted by several shots from a 12-caliber rifle. One of the shots found a bullet in the thigh of a man named Wright. B. T. Bashford, a R. N. W. M. P. constable, went to the house to arrest Oszust, when the latter threatened him with a gun. Later on, the constable returned and placed Oszust under arrest. While in the discharge of his duty Joe Oszust, a son of B. Oszust, drew a gun on the constable who shot him in the leg.

B. Oszust was sentenced to two years in the Edmonton penitentiary, at hard labor, for pointing a gun at a constable in the discharge of his duty. He also received two years for inciting his son to draw a gun on a constable, the two sentences to run concurrently.

Joe Oszust, the boy who was mixed up with a robbery of \$100.00 here some months ago, was sentenced last Friday to four years in the Lethbridge jail, at hard labor.

In passing sentence Judge Crawford remarked that too many people were running at large, with knives and revolvers, and stated his intention of making an example of the prisoners.

The Oszusts formerly lived in Coleman but moved away some time ago, to the relief of the residents of this town.

### Centenary of a Great Missionary

The Bible Class of the Institutional church have arranged for a special centenary service in memory of the life and work of David Livingstone. Addresses will be given by Mr. W. E. Davison, the Rev. Mr. W. Watson, and the Rev. Mr. W. Watson.

The service will be held on Sunday, at 10 o'clock, in the Institutional church. The service will be held on Sunday, at 10 o'clock, in the Institutional church.

A very cordial invitation is extended by the members of the Bible Class to all who are interested in the achievements and character of this devoted man; especially are the young people urged to attend. The meeting will last for one hour from 1 to 2 o'clock, on Sunday afternoon. An offering will be taken in aid of the funds of the Assembly's committee on young people's work.

### Rex Theatre

The Rex theatre, formerly known as the Grand, will this week-end open its doors to the picture-loving public of Coleman. Talking with the manager, one learns that by co-operation with other theatres he is able to secure exclusive runs of licensed films, the identical program shown at Calgary only a few weeks previously. Asked about prices, the manager smiled. "Guess we can keep pace with the other outfit. Fifty cents per month is our charge. Our house is rather small, seating capacity 200 but we put on two shows nightly—7:30 and 9:30 o'clock, and we propose changing our pictures only three times a week as a commencement, so something like 800 people will have a chance of seeing each program." The pictures will be changed Tuesday, Thursday and Saturday.

### Pacific Great Eastern

The Pacific Great Eastern is now looking for a route into the Peace River country, and next year the question of its extension in that direction may be taken up. It is within the realm of possibility that when the Panama Canal is opened to traffic, connection may be made by the Pacific Great Eastern with railways to the south.

### French Marine Strike

Marcelles, France.—The steamship Canada, of the Faure Line, sailed for New York with a staff of officers from the port of St. Malo. The strike continues and efforts are made by the officers who deserted their ships to induce their comrades arriving in the port on their vessels to join the movement. The cause of the strike is stated to have been the failure of the company to grant improved conditions and pay for the officers.

### Cheaper Fruit for West

Saskatoon.—The board of trade recently discussed the question of cheaper fruit for the west. It was decided to communicate with fruit men in the east and in British Columbia to see if direct shipments cannot be arranged, cutting out the middlemen and his profits.

### SHY OF CANADIAN LOANS

London Shows Increasing Reluctance to Invest in Canada

London.—Canada is feeling acutely the reluctance of investors here in finding it difficult to raise sufficient capital to provide for the large expenditures of the coming year. So far all new issues have had but a poor reception. The Edmonton-Division Railway and also the Toronto & North York Railway schemes are exciting much interest, but it is hardly thought that a loan will be attempted for some time.

All classes of colonial loans are weak. They have been passed from the 4 to the 4 1/2 per cent. type. The highest example of the higher value of investment money is furnished by the Winnipeg \$3,700,000 which was brought out at 4 1/2 per cent. at par.

### G. T. P. IN MOUNTAINS

Final Gap Contract Subject by Foley, Welsh and Stewart

Winnipeg.—Foley, Welsh and Stewart exhibit the final gap in the Grand Trunk Pacific Railway in the Rocky Mountains, lying between Port George and Fraser Lake. Owing to the mild winter the contractors claim they will have no difficulty in connecting the two ends of steel east and west this year, and of running trains through from Prince Rupert later in the fall.

The big bridges across the Porphyry and Boulders rivers, the largest on the G. T. P. in British Columbia, with the exception of that across the Skeena, are completed and less than four hundred miles separate the eastern and western lines under construction. The winter in British Columbia has been exceptionally mild, the only drawback being that the Fraser River usually frozen so that roads can be built down it, has been open all winter.

### AUSTRALIAN CAPITAL

Plans Being Considered to Beautify Chief City

Melbourne.—The Commonwealth has recently expended about \$30,000 in connection with designs for the federal capital. Of this sum \$15,000 was allotted as prize money to three designs selected by the majority of an independent board of examiners and \$2,000 was given to the architect of the first design in a minority selection.

A Home Affairs Department at Board has, however, reported their inability to recommend the adoption of any one of these designs and after further consideration of all of them. The Department Board considers that the plan recommended is the best for the present and the future and should result in the creation of a practical and beautiful city.

### SOUTH AFRICA TO FALL INTO LINE

High Commissioner Declares Union Feels it Must Aid the Empire

London.—At a visit of inspection by a party of New Zealanders to the latest battleship, New Zealand, Col. Allen, minister of defence for New Zealand, said the Dominion must give not only more ships to the Imperial navy, but more men also. Sir Richard Seddon, high commissioner of South Africa, said there was a strong feeling in South Africa that the union should fall into line with other Dominions in contributing to the Imperial navy. The new warship will be inspected by the king.

### PRINCE RECOVERING

Little Czarevitch Showing Signs of Great Improvement

Yalta, Crimea, Russia.—The Imperial Crown Prince Alexis of Russia is still unable to straighten his left leg at the knee and to take his usual recent, but according to the physician in attendance, this lameness will rapidly disappear. General Dumbadze, who returned from the palace of Tsar Nicholas, visited the youthful prince, and conversed with him repeatedly.

He says the lad is as full of spirit as ever and has grown considerably taller, and more muscular since last spring. The members of the Imperial family are delighted with the rapid and satisfactory recovery of the prince.

### Distribution of Picture Films

New York.—The distribution of the motion picture film is not a utility which might further the public good, therefore the Greater New York Film Rental Company cannot compete the Motion Picture Patents Company to supply it with films. Supreme Court Justice McCall so ruled.

In matters closely touching upon the public interest, made his decision monopoly of trade to the exclusion of one whose service might further the public good may be regulated or restricted by the subject of this action—the distribution of motion picture films—is not within the class of public utilities.

### CHINA'S LOAN DIFFICULTIES

French Ambassador Urged to Make Them Greater

The Chinese Government contends that the French opposition is unreasonable and is due to a desire to increase Chinese competition. Mr. Olsson's competency, the Government says, cannot be questioned, and it points out that Frenchmen already hold two of the highest posts under the Chinese Government.

## FRANK WAS BESTED

BY COLEMAN LAST FRIDAY NIGHT

Our Hockey Team Once More Victorious, Winning Out at the Tail End of a Fast Game—Big Crowd Present

The Coleman hockey team, accompanied by a crowd of fans, drove down to Frank last Friday night and captured the game in the last twenty minutes. It was a good game of minutes. The Coleman team, between a couple of the players, usual, Coleman waited until the tail end of the game and then made a spectacular finish, scoring two goals in the final period, and winning the match by a score of 6-4.

Every lively rig in town was pressed into requisition to carry the hockey enthusiasts to Frank. There were several spills on the way, in one of which a lady had a limb badly bruised.

One rig, built for two, carried six people—and no light weights at that. They ever managed to squeeze into the little red cutter is a mystery, but they did it.

The next league game will be played to-night, with Blaimore, on the local ice.

Read the Bulletin and keep in touch with local happenings.

### Fancy Dress Carnival

Posters were printed this week announcing a fancy dress carnival at the Coleman skating rink next Monday night, Feb. 17. Manager Davies has secured a fine lot of prizes, which will be awarded to the lady, gentleman, boy and girl who dress and carry out the character represented in the best manner. There are also prizes for a lady's race and wheelbarrow race. The judges, Messrs. O. E. S. White and Alex. Cameron, are above suspicion of favoritism, and the public may rest assured that the prizes will go to the ones most deserving of them. Stokes' orchestra will supply the music, and after masks are removed the general public will be permitted to use the ice.

### Official Auditors

The last issue of the Alberta Gazette contains the names of the following who have been appointed official auditors: David Hyslop, of Coleman. Peter Patterson, of Blaimore. Evan Morgan, of Frank. John Griffiths, of Lillo. James Burke, of Bellevue. George Hambrough, of Hillcrest. John Kerr, of Pellyburg. Oliver Johnson, of Lundbreck. William Chalmers, of Burnis.

Forty years in use, 20 years the standard, prescribed and recommended by physicians for women's ailments, Dr. Martell's Pills, at your druggist.

COLEMAN, ALTA., FEB. 11, 1913.

### THE BEST EVER

The last issue of the District Ledger contains a lengthy editorial under the caption "A Few Suggestions for our Postmaster," the sum and substance of which is that the good people of Fernie can very seldom depend upon getting their mail, especially should the train be late. The postmaster and his assistants distribute the mail but as soon as they have completed their task the door of the lobby is closed. This applies equally to Sunday mail.

In Coleman, no matter how late the train, the mail is always distributed and every box-holder has free access to the post office lobby at all times of the day or night. Sunday mail is no exception, and many have been the comments of traveling men who state that Coleman is the only town or city in the province where they can depend upon receiving their mail on Sunday.

Postmaster Morrison receives no bonus for this extra work, but simply puts himself in the position of a man whose mail may mean much to him, and acts accordingly.

And yet, there are some people in Coleman, very few it is true, who are sparing no pains to oust Mr. Morrison from his job as postmaster. Irrespective of "party affiliation," to the "victors belong the spoils," and other ancient chestnuts along that line, Coleman has the best and most accommodating postmaster in the Province of Alberta, and the members of both political parties should acknowledge that fact and do all in their power to retain Mr. Morrison.

### SAVINGS AND TRUST CO.

A number of young business and professional men, of Vancouver, B. C., have organized the Anglo-Canadian Savings and Trust Company, Ltd., and will open a branch in Coleman immediately. The company has secured a charter for British Columbia, also one for Alberta. Floor space has been secured in the office of the Coleman Realty Co., and the company expects to do a general banking business. We will refer to this at greater length next week.

### DESTROY AEROPLANES IN WAR

Small Device Will Cause Machines to Capsize

Paris.—An apparatus has been devised, if all that is claimed for it is substantiated, may have an important bearing on the aeroplane as an engine of war.

General Hirschauer, of the flying corps, has received a communication from the inventor of the apparatus, Dr. Cougan, a scientist who has recently been experimenting on this device with Jules Verne, the aviator. He informs the General that the apparatus, which is small and simple, can be carried in a soldier's knapsack, and by provoking disturbances of the air will cause any type of aeroplane to capsize, even if it has ascended to a height of more than one thousand feet.

Women Drink in Denver  
Denver, Colo.—Twenty women to one man in Denver drink intoxicating liquor, and they drink more than men.

This statement was made in the Colorado Senate by John Hedger, of Denver. It followed a vigorous attack by Mrs. Helen Ring Robinson, Colorado's first woman senator, upon a statement made in a Washington newspaper and attributed to Hedger, to the effect that women in Denver drink more highballs than the men. Senator Robinson denounced the quoted statement as an insult to the women of Colorado, and threatened to move the expulsion of Hedger from the Senate if it should be repeated.

## TO HANDLE THE CROPS

### GOVERNMENT TO DETERMINE BEST ELEVATOR LOCATIONS

Plan the Construction of a System of Interior Elevators and Transfer Elevators at the Coast and Hudson Bay—Sandy Markets at Winnipeg and Fort William.

Ottawa.—Probably the most important feature of the Canadian Grain Commission report tabled in the house by Hon. George E. Foster, is that in order to provide adequate facilities for the handling of the future grain crops, an effort would be made to take full advantage of the completion of the Hudson Bay railway and the Paskam Canal. This could best be done, the commissioners say, by the construction of a system of interior elevators, transfer elevators on the coast and Hudson Bay. Suggestion is made that the board should be authorized by government to investigate and report on the most suitable location for these elevators. The board takes it for granted that such a system of elevators would be both owned and operated by the government.

The board recommends that sample wheat markets should be established in Winnipeg and Fort William by Sept. 1, 1913, and that the railway companies be requested to grant facilities for taking samples at such points as shall be agreed upon by the railway commission and the grain commission. Another suggestion is that there should be one inspection at the head of the lakes instead of two; that there should be a reduction in the number of inspectors districts in the eastern division; that there should be a chief inspector for the western division; that a weighmaster should be appointed for the western division to have charge of a weighing department and that a system of registration and cancellation of the warehouse receipts should be established.

The report states that there are in the west 2,225 country elevators with a capacity of 67,000,000 bushels. The work of inspecting these elevators is done by the deputy inspector, but owing to their number it is impossible for him to do it thoroughly and they can be inspected only on special occasions. The capacity of the terminal elevators at Fort William and Port Arthur is given at 27,820,400 bushels, as compared with 25,700,400 in 1911.

### TO TEST CITIZENSHIP LAW

California Suffragette, Married to Englishman, is De-franchised

San Francisco.—Ethel Mackenzie, wife of MacKenzie Gordon, concert soloist, and San Francisco clubman, who is a British subject, has begun proceedings in the State Supreme Court to test the interpretation of the federal law that a woman who marries an alien loses her citizenship through being compelled to take the political status of her husband.

Mrs. Mackenzie, who was one of the leaders in the suffrage campaign which resulted in the enfranchisement of Californian women recently was refused registration by a ruling of the board of election commissioners. In her petition filed recently, Mrs. Mackenzie asks for a writ of mandamus, compelling the board to allow her to register.

The Act of Congress by which she was prevented from registering, was passed in March 1907. She contended that it does not apply to her, as she has not lived outside the United States.

### Synopsis of Coal Mining Regulations

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, and the Northwest Territories and a portion of British Columbia, may be leased for a term of twenty years at an annual rental of \$1 per acre. Not more than 2,000 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the agent or sub-agent of the district in which the rights applied for are situated.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn reports accounting for the full quantity of merchantable coal mined and sold for the royalty thereon. If the coal mining rights are not being operated, such reports should be furnished at least once a year.

The lease will include coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be available at the time of the lease.

The full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the Dominion Lands.

W. W. COBY,  
Deputy Minister of the Interior.

X. B. Unpublished publication of this advertisement will not be held.

## RETURN TO THE NORTH

STEFANSSON ANXIOUS TO GO  
BACK TO THE WILDS

Seeks Commission From Canadian Government to Continue Exploration Work in the Northern Part of Canada—Opposed to All Efforts Towards Civilizing the Eskimos.

Ottawa. — Vilhjalmur Stefansson, the explorer, who has spent a half dozen years within the Arctic Circle, representing Canadian interests in the joint expedition sent up under the direction of Stefansson and Lieut. Anderson by the United States and Dominion geological surveys, arrived in Ottawa. It is understood he will lay before the government the results of his last expedition with a view to securing support for another trip north.

Stefansson during the course of his explorations, which were mainly ethnological in character, sent a series of letters to the general survey describing his movements, and referring briefly to his hardships, which were many, the explorers having to live for periods on seal oil and tea leaves, helped out with the usual cheap necessities.

Interviewed, however, he states that Arctic hardships are by no means as disastrous as one would gather, and that it is above all the life for him. He desires to go back north to continue his explorations, although this is his first trip to civilization after years spent beyond the outer fringe of it.

He is in hopes that the Canadian Government will take steps, while there is yet time, for the protection in Central Arctic Canada and Victoria Land of the caribou and musk oxen, and the Eskimos as well, all he thinks, being in danger of extinction.

Mr. Stefansson expressed wish, in fact, in regard to the new race of white Eskimos, whom he discovered up north was that no attempt would be made to civilize and Christianize them.

Mr. Stefansson is making arrangements for the trip into the Arctic for the purpose of exploring for geographical and other information, the last of the unknown northern lands. He expects to make a start from Victoria in May, and will be accompanied by six men.

Mr. Stefansson will, in all probability, make his headquarters on St. Patrick's Island. He will remain in the north for three years. It is quite probable that the expedition will be clothed with the authority of the Canadian Government to take possession in the name of the Dominion of any new lands discovered.

Spain Makes Peace with Rome  
Ambassador Post Vacant Since 1910,  
Has Now Been Filled

Rome. — Fernin Calleson Y. Planchon, the new appointed Spanish ambassador to the Vatican, presented his credentials to the Pope. The ambassadorial post had been vacant since the summer of 1910, when the late ambassador to the Holy See was withdrawn, as the result of the strained relations which arose between the Vatican and the government of the late Premier Calleson.

Senor Calleson Y. Planchon and the members of the embassy staff drove to the Vatican in three coaches, and the ambassador was received by the pontiff in the throne room.

The Spanish diplomat delivered an address to the Pope, and the latter, after replying thereon, retired with the ambassador to the Pope's private apartments, where the two conversed together for some time. The ambassador later presented the members of his staff.

After having presented his credentials to the Pope, Senor Calleson Y. Planchon, escorted by the master of ceremonies and the Swiss Guards, paid a visit to the papal secretary of state, Cardinal Merry Del Val. The cardinal, later in the day, went to the Spanish embassy and returned the visit.

## OPEN WILD LANDS

Borden Government to Throw Unhomesteaded Prairie Lands Open to

Lease

Ottawa. — It is understood that it is the intention of the Government to undertake the surveying of large areas of land in the Prairie Provinces heretofore designated more or less generally as wild land, and then to throw the same open for leasing. No formal announcement of this intention has yet been made, but good authority has it that such a decision has been reached. It is said that many of the vast number of acres of this so-called wild land are in reality land that could be put to good use. It is all probability the Government, after having surveys made will have descriptions of various portions of it prepared and conditions drawn up, under which settlers may obtain leases of such lots as they desire.

## Stolen Gainsboro

London. — Messrs. Agnew and Sons, art dealers, together with Mr. Chad. John Englewood, and the executor of the late D. L. Allen, are being sued in the London courts by Mr. William Pitt-Rivers Burton for the recovery of a Gainsborough picture of the daughter of the Earl of Pembroke, which it is alleged mysteriously disappeared from Burton Hall, County Antrim, Ireland, and was afterward sold at Christie's by the late D. L. Allen, an actor. The case aroused considerable interest.

## FOR SELF GOVERNMENT

Indian National Council Pass Resolution at Congress

Banikpore, India. — At the final sitting of the Indian National Congress a resolution was carried in favor of provincial autonomy. Surendranath Banerjee, who proposed it, made it clear that what Indians aimed at eventually was colonial self-government. A resolution was also passed expressing appreciation of Mr. Gokhale's exertions on behalf of the Indians of South Africa and the Congress closed with cheers for the King-Emperor and the Open Government.

## RUSH STARTS EARLY FROM OLD COUNTRY

Four Large Parties Have Reached Winnipeg Since First of Year

Winnipeg. — The 1913 immigrant rush is starting off very strongly and no less than four large parties of new settlers have already found their way into the Canadian west since the beginning of the year.

Two hundred and fifty persons were brought into Winnipeg by the Canadian Pacific a few days ago. Eighty per cent. of the new arrivals were young men who have come out from the British Isles. They were some of the passengers from the Hesperian and Montrose.

Captain Oliver Hind, of Nottingham, England, is arranging to send out to the Canadian west a party of 15 boys, ranging from 15 to 20 years of age. The idea is to place the lads on farms where they will be paid the highest wages possible, according to their experience. They will sail on the Virginian leaving March 14.

J. Bruce Walker, commissioner of immigration, says that if this party proves successful it will be the forerunner of many others, consisting of boys from the midland of England. He states that arrangements have been made by the immigration authorities to find places for Captain Hind's boys, prior to their arrival.

The boys, he says, will not be sent to farmers who will use them until about the end of November and then turn them loose to find for themselves but they will be placed where they will be kept for the year. In every case the authorities will insist upon guarantee to the effect that the boys will be treated seasonably and kept for the whole twelve months.

## Many Favor the Wireless for Yukon District

Edmonton, Alta. — Traders, freighters, homesteaders and officers of the Royal North West Mounted Police in Edmonton and northern Alberta are unanimously in favor of the proposal to establish a series of wireless stations from Athabasca down the Mackenzie river and from there to Rampart House, in the Yukon. This plan was discussed at Ottawa recently at a conference between Dr. Thompson, M. P., for the Yukon, Bishop Stringer, of the House of Commons, and Dr. King, director of the astronomical department. It is said here that the establishment of a chain of stations will be the means of securing much scientific data of value and assist in opening the far north country. The stations would also be of value to the meteorological department, giving the observers a wider field from which to make forecasts and placing them in touch with a now almost unknown territory north of the 55th parallel.

## CONSOLIDATED SCHOOLS

Alberta to Try Out the Experiment This Year

Edmonton. — Amendments will be made to the Education Act of Alberta at the coming session to make provision for the establishment of consolidated schools in the province, announced Hon. John H. Boyle, Minister of Education. Other minor changes will also be made to insure smoother working of the act. The minister recently visited consolidated schools in operation in Manitoba, Ontario and in some American states, and is of the opinion that where the extra expense can be borne decided advantages are offered by bringing children from several school districts to one central school. Manual training and domestic science and advanced continuation work will be taught in connection with these central schools.

## Government of Alberta Plans a Busy Session

Edmonton, Alta. — While no official announcement has been made as to the government's program, to be taken up at the session of the provincial legislature, beginning February 11 in the new parliament buildings, assurances have been given that the main items will be railroad and rural telephone extensions, good road construction and grain elevator building. The last named is designed to relieve the situation caused by inadequate storage and shipping facilities following the harvesting of crops. The executive council has invited Lieutenant-governor Bulger to formally open the session. Premier Sifton and members of his cabinet have moved to their new quarters in the big structure which overlooks Saskatchewan river. The buildings, costing \$1,500,000 were formally dedicated last fall by H. B. H. the Duke of Connaught, governor-general of Canada.

## Start Big Lumber Operations

Edmonton. — The Upper Fraser River Lumber Company, of Montreal, incorporated in this city by A. H. Edwards, who is at present a guest at the Alberta Hotel, has started operations for the erection of a large saw mill at Don Creek that will employ over 200 men around the mill alone and over 400 cutting timber in the large timber limits that the company has acquired in British Columbia. The new lumbering company are some of the most influential in the country, some of the officers of which are: President, Hon. W. C. Edwards, Ottawa; vice-president, Alexander McLaren; and secretary, George B. Pike, of Montreal. J. J. Chamberlain of the Grand Trunk Pacific is also heavily interested in the company.

## Must Answer Murder Charge

Edmonton. — Alice Butler, who shot and instantly killed her husband on January third, and who claims it was accidental, will have to answer to the charge of murder, and James Veal, who was a witness to the shooting, is charged with being an accessory, and a charge of perjury has also been laid against him. The information on the three charges were made out by Captain D. W. Sims, of the detective force, and signed by the magistrate. The magistrate reminded all cases until next week.

The charge of vagrancy against Mr. Butler and that of carrying a concealed weapon against Veal have been withdrawn.

## Coleman's Up-to-Date Jewelry Establishment

Constantly on hand a most full and complete stock of everything to be found in an up-to-the-minute jewelry establishment, with new goods being added as business demands.

## His Chance

What do you men know of women's work? I recently queried the lady-organist. There is a man here, she continued, folding her arms, that has day after day got up in the morning and gone quietly downstairs, made the fire, cooked his own breakfast, sewed the missing buttons on the children's clothes, cleaned the pots and kettles, and swept the kitchen. If there is such a man in the house, I would like to see him. In the rear of the hall a middle-aged man in spectacles in obedience to the summons, timidly arose. He was the husband of the eloquent speaker. It was the first time he had ever had a chance to assert himself.

When going away from home, or at any change of habitat, he is a wise man who numbers among his belongings a bottle of Dr. J. D. Kellogg's Dysentery-Corral. Change of food and water in some strange place where there are no doctors may bring on an attack of dysentery. He then has a standard remedy at hand with which to cope with the disorder and foreman he can successfully fight the ailment and subdue it.

## Worthy of Sherlock Holmes

Tommy's mother had taken him to church to hear the evening sermon, and they occupied seats in the gallery. Tommy tried not to allow his attention to wander from the preacher, but it did. He seemed to be particularly interested in a family who sat in front of him, and when the sermon was about half over he whispered to his mother—Mamma, I never saw those people before, but I know their names. Hush dear! But I do, perished Tommy. Their names? Well, how do you know? Every time the preacher says his text, those two big girls look at each other and smile. Subsequent inquiry proved that Tommy was quite correct.

Father Bernard Vaughan gave some advice to young men in a humorous address.

Popularity, popularity among the ladies, is a great help to any young man, said he, and there is nothing like generosity to make a young man popular.

I heard a lady praising a young man the other evening.

No, he is so generous, she said. He takes mother and me out to dinner nearly every week. We date on him.

Then she smiled and added:

"In fact, we table d'hôte on him."

For arguing that our world is only one of many, Giordano Bruno was burned to death in Rome in 1600.

## Not Always

What is your name? asked the new teacher, as he was taking a roll call of her new class, before disbanding for the summer.

Bill's name.

No, not Bill, but Julius, said the teacher, for the delinquent abbreviations. Next boy what's your name?

My name's Bill, but I suppose I ought to say Billious—Brooklyn Style.

## Put Off

Borrow—Say, old man, I'm badly in need of a V or two.

Hold—Well, you'll find plenty of them in the dictionary.

## A WINNING START

A Perfectly Digested Breakfast Makes

Nerve Force for the Day

Everything goes wrong if the breakfast lies in your stomach like a mud pie. What you eat does harm if you can't digest it—it turns to poison.

A bright lady teacher found this to be true, even of an ordinary light breakfast of eggs and toast. She says:

"Two years ago I contracted a very annoying form of indigestion. My stomach was in such condition that a simple breakfast of fruit, toast and eggs gave me great distress."

"I was slow to believe that trouble could come from such a simple diet, but finally had to give it up, and resort to a great change upon a cup of Postum and Grape-Nuts with cream, for my morning meal. For more than a year I have had no trouble, and have not suffered either when indigestion was my diet."

"I have been a teacher for several years and find that my easily digested breakfast means a saving of nervous force for the entire day. My gain of ten pounds in weight has caused me to want to testify to the value of Grape-Nuts."

"Grape-Nuts holds first rank at our table."

Name given by Canadian Postum Co., Windsor, Ont.

"There's a reason." Read the little book, "The Road to Wellville," in glass.

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

W. N. U. 909

## Daddy's Bedtime

The Song  
Of the First  
Whippoorwill.

The Schoolmaster Whipped Will.

JOE and Evelyn told daddy that Dinah was a good deal upset.

"She said the chuckwill's widow was calling round here last night," said they. "Daddy, do you know the chuckwill's widow?"

"There," said daddy, "just listen. I think you can hear it calling now."

Over in the woods beyond the house could be heard a voice which seemed to say quite plainly:

"Whippoorwill! Whippoorwill!"

"What is it, daddy?" the children cried. "Why does it want Will whipped?"

"My dear, if you could see over those trees you would very likely see a little bird no larger than a robin and with mottled, brown, black, buff, gray and white feathers—a little bird that is so nearly the same color as the bark of the trees on which he sits that you would scarcely notice him."

"Every now and then he opens his mouth and gives the cry which you have just heard."

"The whippoorwill fly about at night catching insects that would otherwise annoy us. The chuckwill's widow and the whippoorwill are birds that look so much alike and make so nearly the same cry that one sometimes is mistakenly called by the other's name."

"When I was a boy I asked grandfather why the whippoorwill was so down on poor Will."

"Grandfather said: 'Once there was a bad boy named Will who stole the eggs out of the nests of birds, and one day he found two dull white eggs on the ground. They were marked with lilac and had gray spots on them. The boy picked them up and started home with them in his hat. He had not gone far when a bird caught up with him and cried so pitifully that he could not help knowing the eggs were hers. He only hurried along faster. The father of the mother, and both of them begged him to give them back the eggs. But he wouldn't.'

"All that night outside the house in which he lived voices were heard saying whippoorwill till all the neighbors wondered what particularly naughty thing naughty Will had been doing."

"And next day at school Will did not know his lesson, and the schoolmaster whipped him, and that night his father whipped him and so on till he wished he had never seen the bird's eggs. The whippoorwill came so thick and fast that they did him good. He let the birds' nests alone after that."

"And grandfather said he was only sorry there wasn't a whippoorwill like that for every bad boy who robbed birds' nests."

## HOW POPLAR GROWS

Rate of Growth Studied in Canada and United States

The aspen poplar, frequently spoken of as the white poplar, is one of the most common trees all over Canada (at any rate in that portion of the Dominion east of the Rocky Mountains). In many parts of the Dominion it forms quite extensive forests, especially in districts that have been burned over. This fact gives it a place of some importance in the forestry of the Dominion, although it is one of the inferior woods.

Some years ago (in 1905) the Forestry Branch of the Department of the Interior made a careful survey of the Turtle Mountain forest reserve in Southern Manitoba, on which this poplar is by all odds the most plentiful tree. As a result of investigation on the basis of data collected during this survey, it was estimated that, if the poplar were allowed to grow to the age of forty years, there would be an average growth, for the whole of that time, of one cord per year on a fully stocked acre. At the end of that time there would be standing on each acre about 850 trees, of an average height of 45 feet and an average diameter at 4½ feet above the ground of 8 inches; these would yield some 40 cords of wood.

Recently the United States Forest Service published their Bulletin No. 38, entitled "The Aspen," and it is interesting to note that the results come close to the figures made out by the Canadian survey. Volume tables given at the conclusion of this bulletin show that trees of the height and diameter given above will each yield between one twentieth and one twenty-fifth of a cord of wood apiece. Thus the 850 acres would give somewhere between thirty-four and forty-two cords of wood. The average of the two amounts gives thirty-eight cords, a figure nearly the same as that obtained by the Canadians.

As there are 55,000 acres in the Turtle Mountain reserve that are capable of growing timber, it is a reasonable inference that the reserve fully stocked would produce \$5,000 cords, or thereabouts, of wood per year. At the low rate of \$1 per cord on the stump, this would mean an annual revenue to the state of \$5,000. Or, to take another point of view it would give to each inhabitant of the electoral district of Souris almost two cords of wood per year.

## For a Late Crop

Rev. John B. Craft was conducting a series of meetings in a rural neighborhood of southwest Virginia. One night he was trying to bring the necessity of early embracing a religious hope to bear upon his congregation. Said he, "Well, just illustrate. You begin in February or March to prepare the ground for planting our spring crop. You plant in April to be on time. Suppose you neglect this work. May will be late but perhaps will answer. Let the work go undone till June, then what will you do? Too late, too late! will be the cry. Just now it is buckwheat called out an old farmer from the rear of the scene. The preacher said: 'National Monthly.'

When Greek meets Greek—what then? asked the teacher.

Wise little Johnny promptly replied: One says to the other, How is the fruit business?

Good Reason

At the trial, which through the beautiful valley, the inquisitive traveler persisted in sticking his head out of the window to get a better view of the scene.

Keep your head inside can't you? shouted the conductor.

Why?

So you won't damage any of the ironwork on the bridges.

Courtsip

Misses—Jane, what do you mean by having six blouses out drying on the line? It is quite absurd. My daughter came out with two a week.

Jane—Well, you see, mum, Miss Matilda is courtin' a bank clerk, and I see couldn't a sweep.

The Schoolmaster Whipped Will.

MOONEY'S BISCUITS  
ARE THINNER

That makes them neater, crisper, daintier, more appetizing.

The one biscuit good enough to take the place of your own baking.

Fresh as the biscuits from your own oven.

Think what that means! Freedom from a broiling kitchen—leisure on the porch or in the parlor. Time to do the little knick-knacks that have been neglected.

MOONEY'S PERFECTION  
SODA BISCUITS

Are the creamiest, crispest crackers made.

They are baked in the big sanitary factory in Winnipeg—right at your very door.

Use MOONEY'S and be sure of a biscuit that is absolutely fresh; a biscuit that will satisfy the family,

In tempting packages or sealed tins as you prefer.

"LET MOONEY DO IT!"

The New  
Perfection  
Toaster

Anyone, even a little girl, can make toast on the

New Perfection Oil Cook-stove

She will not burn the toast, and she will not burn her fingers either, if she uses the New Perfection Toaster.

For toast or roast

For boil or broil

For fry or bake

There is no other stove that is as quick and as handy as the New Perfection Oil Cook-stove—the convenient stove for all purposes, all the year round.

Every dealer has it. Handsomely finished in nickel, with cabinet top, drop shelves, towel racks, etc. Long chimneys, enamelled turquoise-blue. Made with 1, 2 and 3 burners. Free Cook-Book with every stove. Cook-Book also given to anyone sending 5 cents to cover mailing cost.

They do not contain phenacetin, acetanilid, morphine, opium or other dangerous drug. 25¢ a box at your Druggist's. 123

NATIONAL DRUG & CHEMICAL CO. OF CANADA, LIMITED.

Investigations made over Europe seem to justify the belief that the damage by lightning in the cities particularly, has decreased to a very marked degree in recent years, and it is explained by the presence of electric wires, which act as a protection in diverting the electric bolts. As the wires are put underground it is expected that there will be noticed a great increase in the amount of damage by lightning and a return will be generally made to the use of lightning rods.

## She Was Wise

He—I handed in my resignation at the club last night.

She—If that is how you wish me to believe you came out of the place you should have brushed a lot of the dirt off first.—London Opinion.

## An Oversight

J. Barker Sourface—See here, you. I just now paid my poll tax and your young man gave me a receipt for a dog tax.

The Man at the Window—And forgot to give you a tag to wear. How careless of him.

CATS PAW RUBBER SOLES

## Multitudes of People

take **SCOTT'S EMULSION** regularly to repair wasted vitality and enrich the blood to withstand winter colds and exposure.

It contains the highest grade of cod liver oil, medically perfected; it is a cream-like food-medicine, scrupulously pure and healthful without drug or stimulant. Endorsed and advocated by medical authorities everywhere.

**SCOTT'S EMULSION** drives out colds—nourishes the membranes of the throat and lungs and keeps them healthy.

Nothing equals **SCOTT'S EMULSION** for lung and bronchial weakness—sore, tight chest and all pulmonary troubles.

Equally good for infants, children or adults, but you must have **SCOTT'S**.

Scott & Bown, Toronto, Ontario 12-56

### My Kingdom

Down by the mining water well  
I found a very little dell,  
No higher than my hand,  
The heather and the gorse about  
In summer bloom were coming out,  
Some yellow and some red.

I called the little pool a sea;  
The little hills were big to me;  
I made a boat,  
For I am very small.

I made a boat, I made a town,  
I searched the caverns up and down,  
And named them one and all,  
And all about was mine, I said,  
The little apparatus overhead,  
The little mine, too.

This was 'ce world, and I was king,  
For me the bees came by to sing,  
For me the swallows flew.

I played there was no deeper seas,  
Nor any wider plains than these,  
Nor other kings than me.  
At last I heard my mother call  
Out from the house at evenfall,  
To come me home to tea.

And I must rise and leave my dell,  
And leave my little kingdom well,  
And leave my heather bloom,  
Alas, and as my home I neared,  
I saw my big mine apparatus,  
How great and cool the rooms!

—Robert Louis Stevenson

### Defined

Here, Willie, cried the boy's father,  
everybody will be eating you a little  
glutton. Do you know what that  
is?

I suppose, said Willie, it's a big  
glutton's little boy.

### Uncle's Undoing

Uncle, said little Johnny, tell me  
how you charged with your warhorse  
up the Potomac's drift at the  
head of your troops.

Well, said the little-voiced veteran,  
I mounted the fiery animal, drew  
my sword from its scabbard,  
and sank the spurs deep in the quivering  
flanks of my gallant steed.

Yes, said the boy breathlessly, go  
on, uncle, tell me the rest of it!

There isn't any rest Johnny, said  
uncle, with a sigh. The horse  
bucked.

## Mrs. H. VON RODEN OF LYNDON, KY.

Recommends Lydia E. Pinkham's Vegetable Compound for Backache, Nervousness, Headaches.

Lyndon, Ky.—"I have been taking Lydia E. Pinkham's Vegetable Compound for headaches, neuralgia, backache, nervousness and a general run down condition of the system, and am entirely relieved of these troubles. I recommend your remedies to my friends and give you permission to publish what I write."

—Mrs. H. VON RODEN, Lyndon, Ky.

When a woman like Mrs. Von Roden is generous enough to write such a letter as the above for publication, she should at least be given credit for a sincere desire to help other suffering women, for we assure you there is no other reason why she should court such publicity.

**Canadian Woman's Experience**—Windsor, Ont.—"The birth of my first child left me a wreck with terrible weak spells, but I am glad to tell you that I do not have those weak spells and I feel like a new woman since taking Lydia E. Pinkham's Vegetable Compound."

—Mrs. ROBERT FARMAN, 72 Parent Avenue, Windsor, Ontario.

If you want special advice write to Lydia E. Pinkham Medicine Co. (consultation) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

W. N. U. 821

## SUCCESS OF WINNIPEG PERMANENT EXPOSITION

Industrial Bureau's Big Display of Industries and Natural Resources Attracts Thousands

Community advertising has been adopted in Canada without precedent. Canada, that the subject is one of general importance, and methods successfully carried to completion are of absorbing interest to many Western Canadians.

No other city on the American Continent has a more or better equipped permanent exposition, featuring industries and the Natural Resources of the country, than has the city of Winnipeg. This big permanent and free exposition, conducted under the auspices of the Winnipeg Industrial Bureau, was started last Spring and during the past six months, Commissioner Chas. F. Roland estimates, has been visited by 700,000 people.

In addition to the fifty-four exhibitors of local industries, there are now 24 districts of the West, which have secured space and are advertising their communities in this exposition. The places represented at the present time in this important and stupendous exhibit on Main Street are—Brandon, Man.; Portage la Prairie, Man.; Regina, Sask.; Saltcoats, Sask.; Dauphin, Man.; Neufort, Sask.; Souris, Man.; Yorkton, Sask.; Melita, Man.; Prince Albert, Sask.; Emerson, Man.; Oak Lake, Man.; Camrose, Alta.; Selkirk, Man.; Moose Jaw, Sask.; Birtle, Man.; Lemberg, Sask.; Tisdale, Man.; LaCrosse, Alta.; Swan River Valley, Man.; Verrill, Alberta; Swift Current, Sask.; Estevan, Sask.; and Battleford, Sask. In addition to these there are handsome and costly exhibits of the Natural Resources of the West, by the Dominion and Manitoba Provincial Governments and the Canadian Pacific and the Canadian Northern railways.

With this splendid representation of farm, forest and mine of the Canadian West, arranged in attractive form in easily accessible and central position in the metropolis of the prairies, its value as a factor in the settlement of the country cannot well be overestimated, and so popular has the Exposition become as an adjunct to local methods of publicity, that the Industrial Bureau are now completing extensive additions to the floor space. This will accommodate a number of exhibits of "Made in Winnipeg" goods and will provide another opportunity for a limited number of ambitious communities to secure space.

In Winnipeg, the gateway city of the West, all the eyes are turned to the foundry visitors from all parts of the World, in search of opportunity in the industrial forms this land of opportunity presents in the permanent exposition that city has exactly what it needed to arrest the immediate attention of the visitor, and the dead "temple of opportunities" as it has been called, is usually one of the first places the sightseer visits in Winnipeg. Here the visitor may catch a glimpse of a glance, a goodly sort of city Winnipeg is, and what sort of country lies between the prairie of Manitoba and the Rocky Mountains. Here he will obtain information, maps, photographs and actual products of the soil of the district in which he is interested. Perhaps thousands of miles away. Specific information may be obtained on enquiry, and the midway represented will show how the district may be reached or a tour of inspection conducted in the most possible way. If such a visitor is interested along industrial lines he has before him a series of demonstrations of what he believes done locally and will be told of opportunities offered in his particular line.

This sort of investigation, which previously might have taken days, can be conducted with the aid of the Bureau's Exposition and staff in a few hours, and reliable information secured regarding sources of supply and raw material, transportation facilities, freight rates, trade possibilities, and the industrial and commercial life of the country to his enquiry, under one roof and obtainable without effort on his part.

Of course the building has other uses, and contains instructive displays of "Made-in-Winnipeg" goods, museum and art section and numerous meeting places, including a large Convention Hall capable of accommodating 4000 people and other features of local interest, and it is indeed, becoming the public forum and centre of civic life in Winnipeg.

Here, visitors from Western Canadian points are also made welcome, for it is the belief of the Winnipeg Industrial Bureau that the development and progress of Winnipeg are closely identified with that of the great agricultural West.

These Pills Cure Rheumatism.—To the many who suffer from rheumatism, a trial of Parmentier's Vegetable Pills is recommended. They have pronounced action upon the liver and kidneys and by regulating the action of these organs act as an alternative in preventing the admixture of uric acid and blood that causes this painful disorder. They must be taken according to directions and will speedily give evidence of their beneficial effect.

As the Sunday school teacher answered her classmate who saw leaving in great haste a little girl and her still smaller brother.

Why Mary you aren't going away? she exclaimed in surprise.

Pleasant, with Anne, we've got to go, she said, the doctor says Jimmy's choleraed with colic.

## New Trans-Pacific Steamships

All Trans-Pacific records are expected to be broken when the Canadian Pacific Railway puts into service its two new steamships, the Empress of Russia and the Empress of Asia. The Empress of Russia was launched a couple of weeks ago at the yards of the Fairchild Shipbuilding and Engineering Company at Glasgow, Scotland, and as a result, will be the first of the two new vessels to feel the swell of the Pacific. In the meantime, while the vessel is being completed, much discussion is heard among traffic men as to just what effect the new boats will have on Trans-Pacific shipping.

Canadian Pacific officials themselves believe that the introduction of the new boats into the service between Canada and the Orient will mark a new epoch in traffic on the Pacific. Certain it is, however, that whatever other results are felt, all present records for fast voyages between Canada and Japan and China will be considerably lowered. The Empress of Japan at present holds the record for the fastest voyage the Pacific, having made the distance between Vancouver and Yokohama in 10 days, 10 hours, 4 minutes, and between Vancouver and Hong Kong in 17 days, 10 hours and 16 minutes. In view of stops. The Japan however, has only a contracted speed of 18 knots on the measured mile and 16 knots on a sea trial, while the new Empress steamers are designed for a speed of 20 knots per hour. This great advantage in speed will undoubtedly mean a big reduction in the duration of a Trans-Pacific voyage, and in fact, some shipping men are of opinion that the Empress of Russia will cut almost 24 hours off the Empress of Japan, Vancouver-Yokohama.

ONLY ONE WAY TO CURE RHEUMATISM It Must Be Treated Through the Blood and the Poisonous Acid Driven Out

The twinges and tortures of rheumatism are not due to cold, damp weather, as so many persons suppose. Rheumatism comes from poisonous acid in the blood. This is a medical truth which every sufferer should realize. There is only one way to cure rheumatism—it must be treated through the blood. All the rubbing and rubbing, and so-called electric treatment in the world will not cure rheumatism, and the sufferer who tries them is not only wasting money, but is allowing the trouble to become more deep-rooted in the system and harder to cure when the proper remedy is tried. Dr. Williams' Pink Pills make the new, rich blood of health, and in this way drive out the poisonous acid which causes rheumatism. Thousands of instances of cures might be given, among them the following one. Mrs. G. R. DuMasse, Cherry Valley, Ont., says: "I was attacked with rheumatism which gradually grew worse. For about two weeks I had to be shifted and turned in bed as I was utterly unable to help myself. I was under the doctor's care and so far recovered that I was able to get up and move about, but the trouble still remained in my system. If I put my hands in cold water, or if I went out in the evening or in damp weather the trouble would return, and for four years I thus suffered from rheumatism, until I began to think it could not be driven from my system. Finally I gave up other medicine and began to use Dr. Williams' Pink Pills, and after using them for a couple of months I was completely cured and have not had a twinge of rheumatism since. I can recommend the Pills to anyone suffering from this trouble."

These Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

In England the first dock was constructed at Liverpool in 1708.

When going away from home, or at any change of habitat, he is a wise man who numbers among his belongings a bottle of Dr. J. D. Kellogg's Dysentery Cordial. Change of food and water in some strange place where there are no doctors may bring on an attack of dysentery. He then has a standard remedy at hand with which to cope with the disorder, and forearmed he can successfully fight the ailment and subdue it.

China has sixty-four treaty and other ports open to foreign trade.

Minard's Liniment for sale everywhere.

For the United Kingdom the average strength of the Regular Army is 262,000, including officers and men.

Very Mortifying

A doctor and his friend were out walking together one day, and they passed by some houses which had been built and owned, and which he could seldom tell. The doctor turned to his friend and said: "I lost money when I built these houses."

"I would," said his friend, "but you gained in the price you lost in the market."

Minard's Liniment Cures Dandruff.

Salaries of professional baseball players in the United States of America range from \$5,000 to \$10,000 for a season of six months.

## "Grandpa Says THESE Are Good for Little Boys!"

"GOOD" is right. Pure chocolate, pure milk and pure sugar—that's what Maple Buds are. They're not only good to the taste—they're nourishing and wholesome. The children may eat all they want. Maple Buds satisfy their craving for sweets and at the same time build up their little bodies.

Buy Maple Buds at your grocery. Teach the children to spend their pennies for these wholesome sweets.

**COWAN'S MAPLE BUDS**  
Name and design registered.  
Look for the Name.  
They're not Maple Buds, unless they're Cowan's.

Will you be one of the 108 farmers who will receive our Prize Contest checks?

**COUPON**  
**CANADA CEMENT COMPANY LIMITED**  
Herald Building, Montreal

Please send me full particulars of the 1912 Farmer's Prize Contest, and a free copy of your book "What the Farmer Can Do With Concrete."

Name \_\_\_\_\_

Address \_\_\_\_\_

**DESCRIPTION OF CLASSES**  
In Each Class there will be First, Second, Third and Fourth Prizes (\$50, \$25, \$15, and \$10) for Each Province.

CLASS "A"—Prizes to be awarded to the four farmers in each province who use most "Cowan's" Cement on their farms in the year 1912.

CLASS "B"—Prizes to be awarded to the four farmers in each province who used phosphate fertilizer on their farms in the year 1912.

CLASS "C"—Prizes to be awarded to the four farmers in each province who used the best fertilizer, telling how much of concrete work was done with Cowan's Cement. (Receipts for this prize must be accompanied by photographs of the work.)

Don't think that you must use a large quantity of cement in order to win a prize. The quantity of cement used does not count in Classes "A," "B," and "C." Many of last year's prize winners used very little cement.

When you enter the Contest, you have a chance to win a cash prize of \$100 as well as the certainty that you will add a permanent improvement to your farm. If you haven't a copy, be sure and ask for our book, "What the Farmer Can Do With Concrete." It will not only suggest many improvements that you can use in entering the Contest, but will tell you all about the use of concrete on the farm.

Just write your name and address on the attached coupon, or on a separate sheet, and send full particulars of the Prize Contest, and a copy of "What the Farmer Can Do With Concrete" as your reward.

## WHAT'S AT THE BOTTOM OF KIDNEY TROUBLE

There are many causes at the bottom of an attack of kidney trouble—over-eating, over-drinking, heavy colds—these and other causes often cause illnesses such as kidney trouble, gravel, kidney stones, neuralgia, rheumatism, but no matter what is at the bottom of the disease, there is only one safe cure, one that acts quickly and without fail. That remedy is found, which is already well-known to the medical profession of Canada as well as to thousands of sufferers from the disease named above. One Winnipeg lady who is well and widely known, was cured of kidney trouble by SANOL. After suffering for 12 years. She was so grateful to the people who had sent her a large number of people to be relieved of similar complaints. We do not care where the reader of this paragraph resides, we can give him or her names and addresses of people in his own town and locally who have been cured by SANOL. We will also give the name and address of a lady who has been cured by SANOL. We will also give the name and address of a lady who has been cured by SANOL. We will also give the name and address of a lady who has been cured by SANOL.

## When Baking

are you as careful about the salt you use, as you are about the flour or baking powder? Poor salt will ruin a baking, just as surely as poor flour. In the kitchen and on the table, use the fine, pure

Recently, however, Mr. S. took advantage of the half holiday accruing to him through the Shops Act, and made an extra call on the Wednesday. As he was ushered in Miss Mary Goodiey detestably threw the cloth over Polly's cage. Greetings over, there ensued the usual awkward peep, which was broken by a squawk from the covered cage.

Well, I'll be overjoyingly blessed, said Polly. This has been a thundering short week!

Scene: A smoking compartment in a railway carriage.

Old Gent (to Pat, on turlough)—Young man, allow me to inform you that out of every ten cases of men suffering from paralysis of the tongue nine are due to smoking.

Private Pat—Surre, allow me to inform you that out of every ten men suffering from broken noses, nine are due to the habit of not minding their own business.

Esperanto has more than a hundred magazines and journals of its own, which circulate in every civilized country.

**CLEAN HANDS**

A good story is told about a certain notorious character, who is calculated to make newspaper reporters uncertain and uneasy as to their ultimate fate.

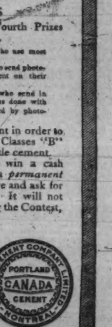

The criminal had been sentenced to death, and the last penalty of the law was about to be enforced. As he stood on the scaffold while the final arrangements were completed, he shook hands with the governor of the pen, the chaplain, and even the hangman; but to the newspaper man who was present he simply nodded, nonchalantly, saying:

Tada, old man. See you later on.

No person is qualified to be elected borough councillor, unless he is a borough elector of the borough, and has during the whole twelve months preceding the elections resided in the borough.

16c a Tin.

Don't let them fool you with a cheap imitation. Buy the ORIGINAL and BEST. It's the only one. Will never grow old and clear of all stains.

## LOCAL AND DISTRICT HAPPENINGS

Events of Interest to Coleman People Garnered During the Week and Presented in Readable Form

## Who is your Valentine?

Charles Faure made a business trip to Calgary this week, leaving Monday night.

Constable Grant went to Macleod Monday night.

Banker Phoenix spent a portion of the week at Calgary.

William Thompson is a patient at the Miners' hospital.

Remember the carnival at the Coleman rink next Monday night.

H. C. Higgins has just opened up a paint shop in the rear of Jenkins' pool room. 45-46

Dr. Porter and N. Orr returned Wednesday morning from a business trip to Calgary.

Go up to the rink to-night and watch the Coleman boys trim the Blairmore hockey team.

J. Gilchrist, of the Carbondale Lumber Co., leaves on Saturday evening for St. John, New Brunswick.

To-morrow will be pay day for the miners employed in the local mines, and it promises to be a "hummer."

A. P. McDonald, the liveryman, has leased his stable, horses, outfit and land and will live the simple life for a spell.

Billy Irving was in from camp Tuesday, wearing as a result of his prowess with the gun a watch-chain with hair on it.

R. B. Buchanan returned home Sunday from an extended holiday trip to eastern points. Mrs. Buchanan accompanied him.

Harry Gate received a wire Tuesday from his married daughter, residing at Merritt, B. C., announcing the birth of a baby girl.

Coleman is now a stop-over point for the railway mail clerks, the clerk coming up from Medicine Hat stopping here and remaining until the return trip.

The hotels were busy this week, laying in provisions for the summer season for summer use. The ice was

obtained from the lake at Crows Nest and is guaranteed the purest and best in the country.

Dr. Irving R. Bell, of Passburg, leaves this week for Chicago where he will take a post-graduate course. The Doctor intends to return to Passburg by the end of March.

Among the rumored successors to the Coleman Mercantile company, when the stock is disposed of, are the Trites-Wood company, of Fernie, and a branch of the Hudson Bay company.

Rex theatre, formerly known as Dreamland, will re-open to-morrow. The new management has carried the war into the enemy's camp and announce fifty shows for fifty cents per month.

The officers and members of Coleman Lodge No. 38 and Victoria Rebekah Lodge No. 7, I. O. O. F., will hold their fourth annual ball at the opera house on the evening of Friday, March 7.

Two sleighloads of hockey enthusiasts drove down to Blairmore, Wednesday night, and rooted for Frank—the under dog in the league. Frank won out by a score of 7-6 in a good exhibition of hockey.

After their return from the hockey game at Blairmore, Wednesday night, two of the "hockeyists" engaged in a 45-minute fight, on the street. One combatant had an optic discolored and the other bruised and swollen lips.

A resident was up before Magistrate Morrison, Thursday, to answer to a charge of beating up his wife. He was engaged in the pleasant pastime when neighbors, hearing the row, phoned for the police. The fellow was placed under bonds to keep the peace.

The Ladies' Auxiliary of the Institutional church, will hold an apron sale and tea on March 19th, at the club room. All the ladies of the church are requested to donate an apron. To be delivered on or before March 19th, at the residence of Mrs. Thompson, opposite St. Albans

church. Following the sale and tea, a concert will be given by local talent.

If you need anything in the line of painting, kalsomining or paper hanging see H. C. Higgins, at rear of Jenkins' pool room. 45-46

WANTED.—A Girl for Bookkeeping, experience not necessary but must be neat writer and accurate at figures. Apply in writing to H. Lamberth, The 41 Market Company, Coleman.

## Horse Thought Otherwise

A gay Lothario, with two affinities, started for Frank last Friday night—or, at least, that was their intention but the horse thought otherwise and quit. Chief Ford arrested the animal for standing in the middle of the street and led the outfit for half a block, when the horse concluded to endeavor to draw the heavy weight behind it. Before reaching Bush-town, however, the animal quit for good, and the joy-riders were walking back to town when a couple of good Samaritans took pity on them and stowed them away in the little red cutter. They say they were packed in so close, six in one cutter, that a crowbar had to be used to pry 'em out when they reached Frank.

## Brought Home a Bride

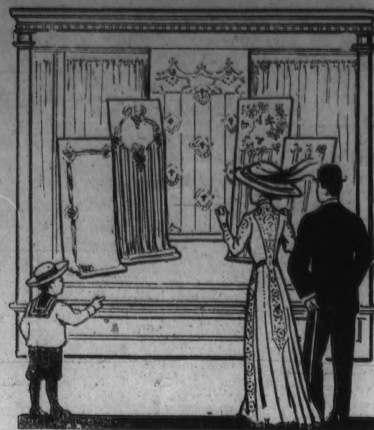

Dr. Allan Ross, Hillcrest's popular physician, returned home from a month's visit in the east this week. He sprung a surprise on his friends by bringing with him his bride. They were married at Niagara Falls, N. Y., on the 3rd inst.

## Opera House

Three of the most elaborate productions ever shown in the Motion Picture world are to be shown at the above theatre next week. The management are giving their patrons a treat. By special arrangement with the Canadian Amusement Co., of Vancouver, B. C., these costly features have been leased for three days only—Feb. 17, 19 and 21. Watch for display advertising.

## A Challenge

Coleman, Feb. 13th, 1913. The Coleman Football club hereby challenge the Coleman Hockey club to a game of hockey at any time that will suit the latter. A match can be arranged by communicating with J. GRAHAM, Sec'y Coleman F. C.
